

Throughout a year of new ways to stay connected with each other and our greater community MOMS Club of Round Rock-SE managed to have a great year completing five service projects! We organized two fundraisers, a diaper drive, and a supplies drive.

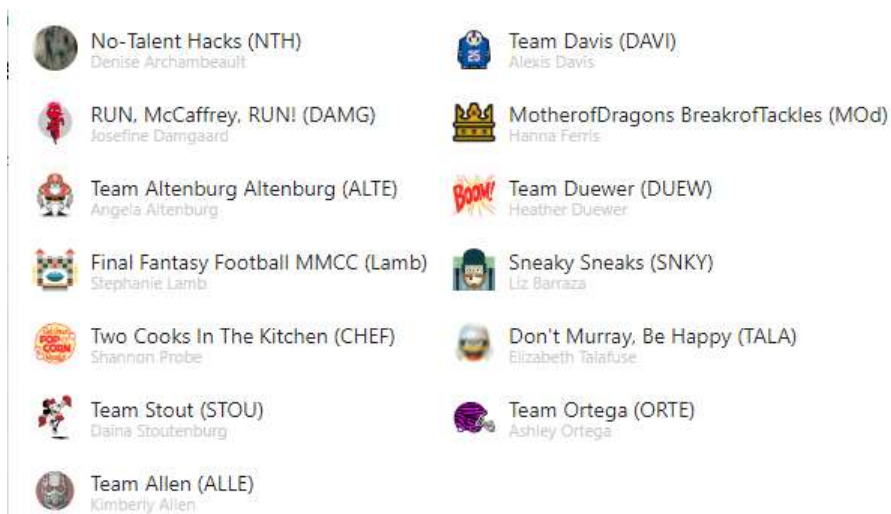

Our first project was a diaper drive for Austin Diaper Bank. We combined the event with a member's sprinkle. Being that she uses cloth diapers and has plenty of resources we focused our efforts on those struggling more during these difficult times. Instead of a gift for the member we were celebrating, our group brought various items to give to the diaper bank. **Altogether we collected \$850, 1,845 diapers or pull-ups, 2,440 wipes, and 56 feminine products.**

Our second project was a fundraiser for the Mother-to-Mother Fund. One of our members coordinated a murder mystery party online as part of our MOMS Night in August and together **we raised \$140 for the Mother-to-Mother Fund.**

Our third project was a fundraiser we've done annually for four years now. We participate in a Fantasy Football League amongst the membership who want to participate and the winner of the season nominates a charity, approved by the membership, to give all funds. Those who play in the league submit a minimum \$5 buy-in, but anyone can donate to the fund. **This year we raised \$400 donated to the Round Rock Area Serving Center.**

Our fourth project was our annual clothing drive. Each year a member hosts a clothing swap where our membership can bring clothes and take home pieces from other members if they'd like. At the end of the event we donate any clothes remaining. We usually have a lot of clothes to donate and we did again this year, **taking ten large bags of clothes to Round Rock Area Serving Center.**

Our fifth project was a **virtual caroling video for a local nursing home**. In the last few years we have gone to sing carols to the residents in person. In 2020, caroling safely looked a little different so we prepared a video and emailed it to the staff to share with residents. It included pictures and videos of members and their families singing and coloring festive pictures.

Our final project of the year was a supply drive for Carrying Hope, an organization that supports children in foster care. We had membership donate **1 complete Hope Pack, 14 backpacks, 8 books, 7 packs of underwear, 6 toys/puzzles, 2 shirts, 1.5 packs of feminine products, 10 small toys, 7 flashlights, and another \$250 that our project coordinator used to buy more Hope Pack supplies for the organization.**

Our chapter is very proud of all the work we did this year to continue to go above club requirements to support our community, especially in such a time of need. We are also proud of the creativity in finding ways to do this work that build community with our membership through a combination of traditional drives and fun events for our membership.
