Information on these convenient options is available from your banker and through our website.

Order of Payments

We pay items by category on the day they are presented to the bank. Checks or other items and charges drawn on or made to your account may be paid in any order we determine. We may do so even if it results in an insufficient balance in your account or more service charges by paying a particular item before others that otherwise could have been paid. In general, we pay electronic items before we pay checks and other items. We pay wire transactions first, then the different types of ACH, ATM and check card electronic transactions. Though our general practice is to pay the items within each different electronic item type by dollar amount from the lowest to the highest, some transactions within an electronic item type may be paid in a different order. We next pay unnumbered checks and items, by dollar amount from the lowest to the highest. Finally, we pay numbered checks and items in numerical sequence, with lower numbered checks and items paid first. In addition, we may vary our general order of payment for items that we are not permitted to return unpaid.
