**Upcoming REG CC Changes Effective July 1, 2020**

Reminder: We have updated our policy to comply with the upcoming Regulation CC Changes. TD Banks Funds Availability policy will continue to make \$100 available immediately at the time of deposit & the remaining funds will be available by the end of the next business day. Sometimes we may need to place a hold to verify funds are available. If this occurs, we will make an additional \$125 available by the end of the first business day after we receive your deposit if a hold is applied. For additional information, please refer to the Funds Availability Policy in the Personal Deposit Account Agreement & Business Deposit Account Agreement, available at [td.com](http://td.com)

**FINANCE CHARGES:** Although the Bank uses the Daily Balance method to calculate the finance charge on your Moneyline/Overdraft Protection account (the term "ODP" or "OD" refers to Overdraft Protection), the Bank discloses the Average Daily Balance on the periodic statement as an easier method for you to calculate the finance charge. The finance charge begins to accrue on the date advances and other debits are posted to your account and will continue until the balance has been paid in full. To compute the finance charge, multiply the Average Daily Balance times the Days in Period times the Daily Periodic Rate (as listed in the Account Summary section on the front of the statement). The Average Daily Balance is calculated by adding the balance for each day of the billing cycle, then dividing the total balance by the number of Days in the Billing Cycle. The daily balance is the balance for the day after advances have been added and payments or credits have been subtracted plus or minus any other adjustments that might have occurred that day. There is no grace period during which no finance charge accrues. Finance charge adjustments are included in your total finance charge.
